INACTIVE INGREDIENTS:
Acetic acid, artificial flavor, benzoic acid (preservative), BHA and BHT (preservatives), calcium carbonate, calcium propionate (preservative), calcium silicate, citric acid, corn starch, dehydrated alfalfa meal, dried cane molasses, lignin sulfonate, natural flavor, salt, silicon dioxide, soybean oil, vegetable oil, vermiculite granules and wheat middlings.

DIRECTIONS FOR USE:
Enclosed scoop holds 1 ounce. Give 2 scoops per day for initial loading dose (2 weeks). For maintenance, give 1 scoop daily (based on an 1100 lb adult horse).

WARNINGS:
For animal use only. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.

ACTIVE INGREDIENTS PER OUNCE:
- Glucosamine HCl (shellfish) . . . . . . . . . . . . . . . . . . . . . . . . . . 1800 mg
- Chondroitin Sulfate (chicken) . . . . . . . . . . . . . . . . . . . . . . . . . . 600 mg
- Ascorbic Acid (Vitamin C) . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 104 mg
- Manganese (manganese/methionine complex) . . . . . . . . . . . . . . . . . . 16 mg

FOR USE IN HORSES ONLY.
RECOMMENDED TO SUPPORT HEALTHY JOINT FUNCTION.

CAUTIONS:
Safe use in pregnant animals or animals intended for breeding has not been proven. If lameness worsens, discontinue use and contact your veterinarian. Administer during or after the animal has eaten to reduce incidence of gastrointestinal upset.

Horse Health™ Joint Combo™ Classic contains glucosamine HCl and chondroitin sulfate, along with the cofactors manganese and ascorbic acid, to form the natural glucosaminoglycan (GAG). Glucosamine and chondroitin are found naturally in the bodies of animals and are necessary for normal joint function. Glucosamine is a natural precursor of glucosaminoglycans (GAGs) and hyaluronic acid. Chondroitin is the primary GAG found in cartilage. Glucosamine is an important cofactor for the formation of GAGs, and ascorbic acid is required for collagen formation. Together, they act synergistically to support healthy joint function.

Net Weight: 8 lb (3.6 kg)
